Tender Submission – Contents and Structure

THE SUPPLY OF PHYSICAL TRAINING EQUIPMENT – SERVICE & REPAIR | Tender reference LSL/DC/0223

Pulse Fitness has organised this submission around the scored questions so that each response is complete and self-contained. Every narrative response opens with its own contents page, states a direct answer, explains how the service operates, supports the position with evidence, sets out the benefit to the Authority and describes how risk is controlled. Quantified UK and overseas performance is aligned to a single 24-month evidence window of 1 August 2024 to 31 July 2026.

Narrative responses

Document	Purpose
2.1 Service Delivery – Detailed Plan	Engineer recruitment, competence, training, allocation, live technical support and performance management.
2.2A UK Support – Detailed Delivery Plan	UK operating model, lead-time control, regional coverage, parts infrastructure, Type A and refurbishment, and the MODService portal.
2.2B UK Support – Comparable Contract Evidence	Two-year MOD case evidence, recorded response, single-visit completion, customer feedback and lessons applied.
2.3A Overseas Support – Detailed Delivery Plan	Local dealer, direct-deployment and combined routes; logistics, technical support and full overseas MODService capability.
2.3B Overseas Support – Comparable Contract Evidence	Two-year overseas response and work activity, mixed-equipment capability and preventative-maintenance evidence.
2.4 Additional Information	Commercially sensitive information, publication consent, holiday-period impact and current corporate assurance position.
