THE PROBLEM

Fitness businesses run on disconnected systems.

Most gyms still stitch their operation together from tools that were never meant to talk to each other.

- Spreadsheets
- WhatsApp
- Email threads
- Paper job sheets
- Booking systems
- Disconnected CRM

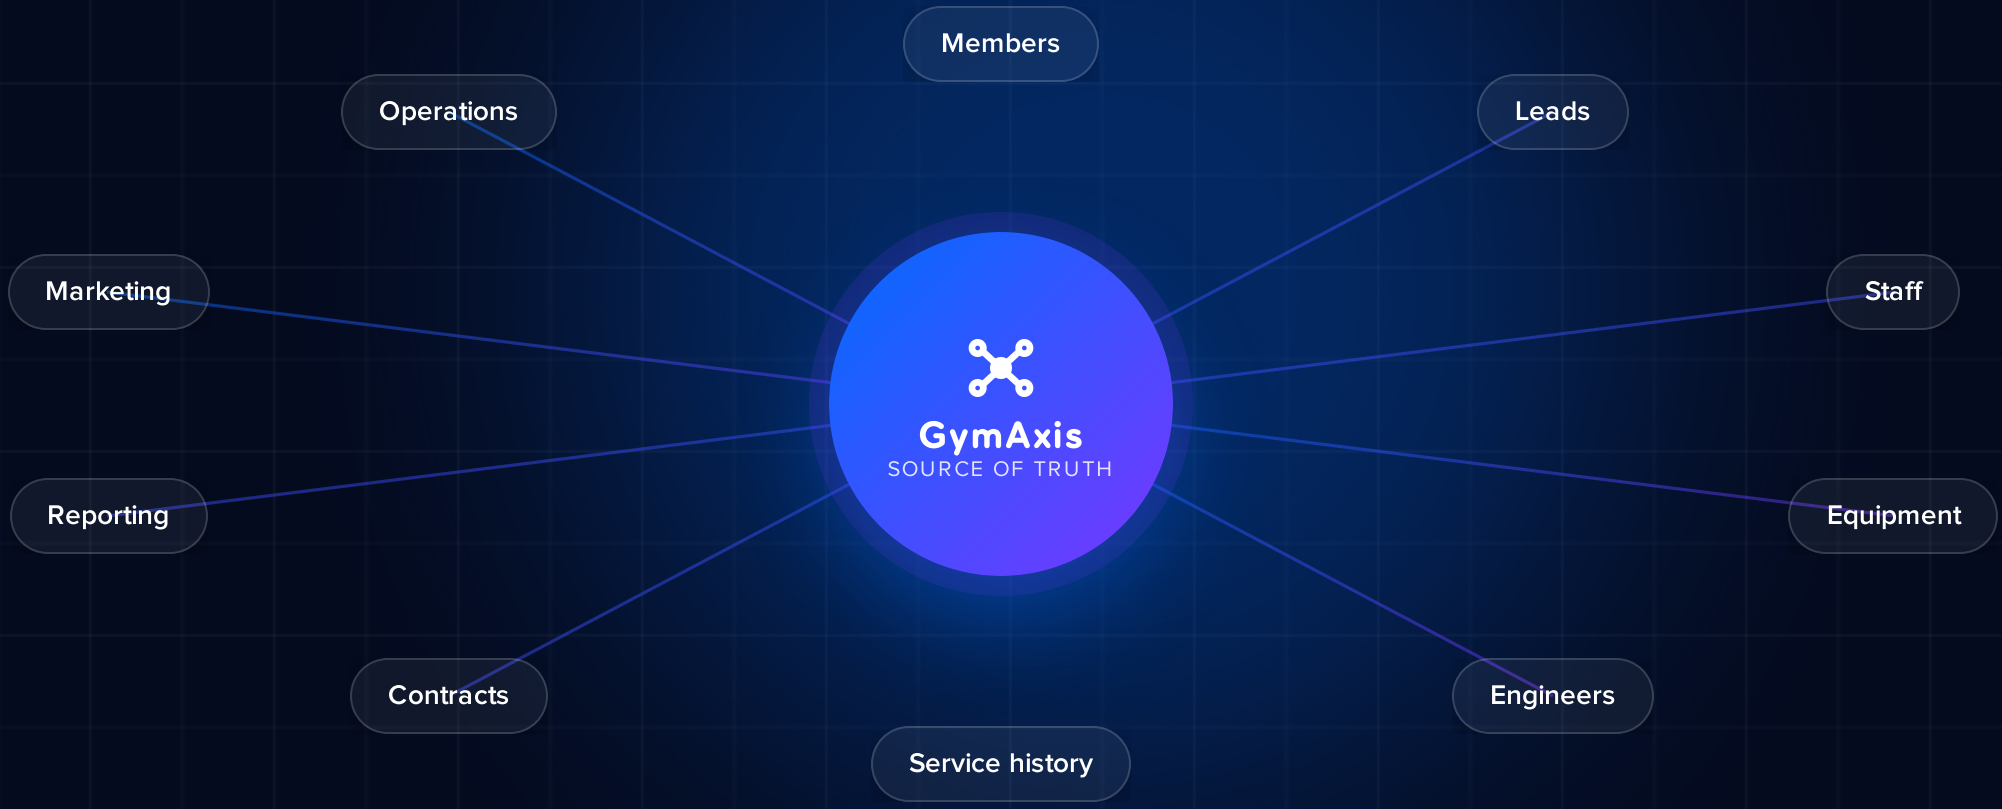

When systems don't talk to each other, the business pays for it.

Information gets lost · admin piles up · members are let down · equipment history disappears · and managers lose visibility across sites.

THE GYMAXIS SOLUTION

GymAxis brings everything together.

One intelligent platform connecting the key parts of a fitness business — a single source of truth for the whole operation.

PLATFORM MODULES

Everything your fitness business needs, in one place.

CRM
Every lead, customer and conversation in one view.

Operations
Run sites, tasks and daily checks with confidence.

Memberships
Members, classes, payments and renewals connected.

Marketing
AI campaigns powered by real business data.

Staffing
Rotas, tasks and team updates without the chaos.

Reporting
One connected view across the whole business.

Engineer App
Mobile jobs, photos, signatures and reports.

Service Desk
From fault logged to job completed — connected.

Contracts
Cover levels, renewals and entitlement tracked.

Asset Mgmt
Serial numbers, service history and risk flags.

CAPEX
Plan asset replacement and investment ahead.

Stock Control
Van stock, parts used and replenishment.

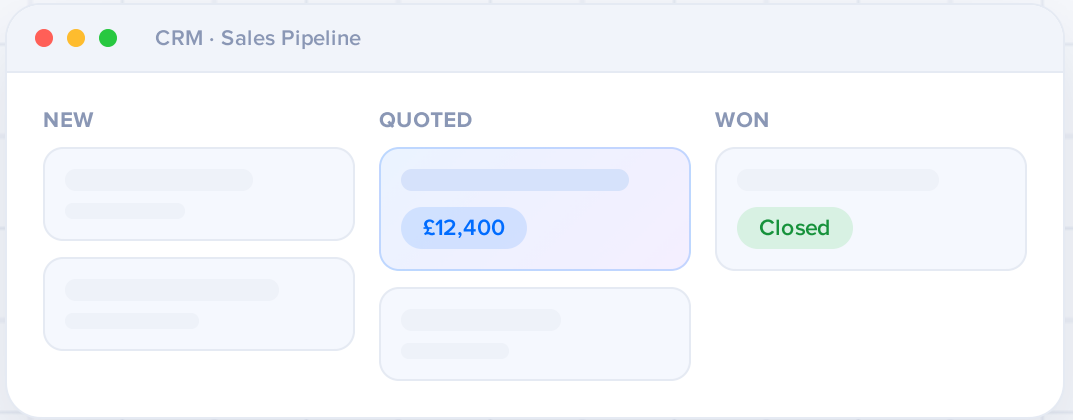

CRM

Know every lead. Every customer. Every conversation.

- Companies & contacts
- Sales pipeline
- Tasks & follow-ups
- Stakeholder mapping
- Lead tracking
- Quotes & tenders
- 360° customer view
- Communication history

KEY BENEFIT

No more lost leads, duplicated data or disconnected customer records.

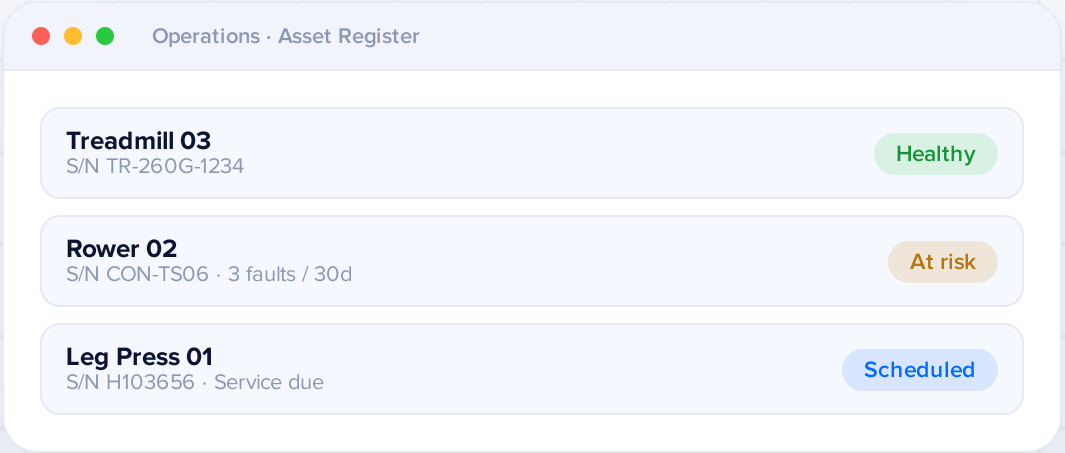

OPERATIONS & ASSET MANAGEMENT

Track every asset, fault and service history.

- Asset register & serials
- Digital check sheets
- Maintenance history
- Condition notes
- Fault logging
- Recurring fault tracking
- Risk indicators
- Asset-level reporting

KEY MESSAGE

Spot equipment issues before they become out-of-order signs.

SERVICE DESK & ENGINEER APP

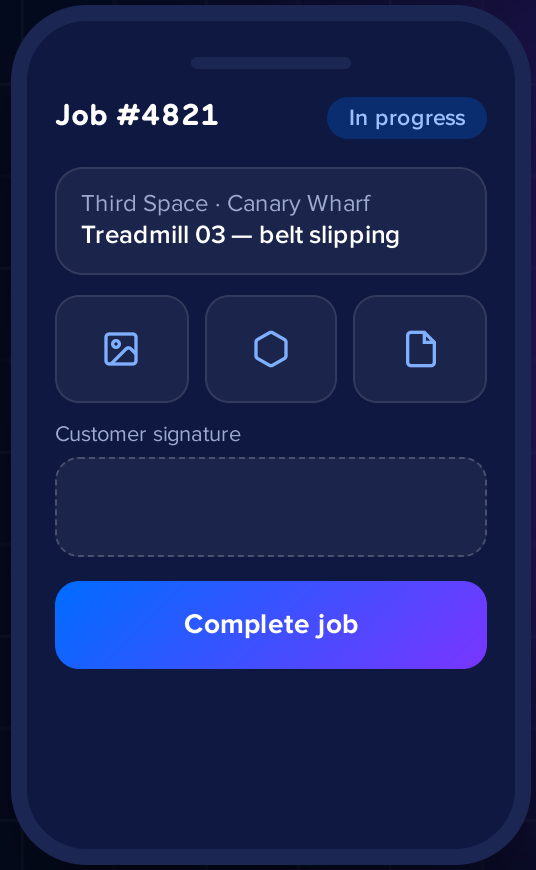

From fault logged to job completed — fully connected.

Connecting office teams, engineers and customers around the same job.

- Case logging & allocation
- Mobile job view
- Service reports & parts used
- Engineer diary
- Photos, videos & signatures
- Quotes, invoices & history

KEY MESSAGE

Engineers get the info they need. The office gets the reports it needs. Customers get visibility.

Give engineers the tools to complete jobs properly.

MEMBERSHIPS

Memberships, bookings and payments — connected to the business.

- Member records
- Payments & renewals
- Attendance visibility
- Studio & gym workflows
- Class bookings
- Member communication
- Retention insights
- Member app

KEY BENEFIT

Memberships aren't isolated — they connect into CRM, marketing, reporting and operations.

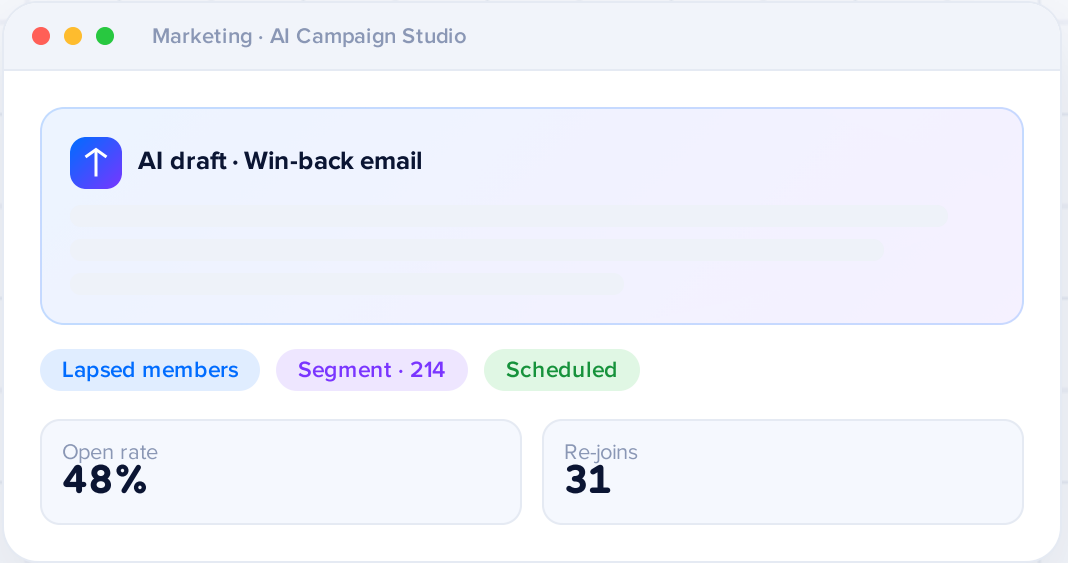

MARKETING

Smarter campaigns powered by real business data.

- AI email content
- Social scheduling
- Follow-up automation
- Creative studio
- Campaign planning
- Customer segmentation
- Behaviour insights
- Campaign reporting

KEY BENEFIT

Marketing becomes more targeted, more relevant and easier to manage.

STAFFING

Keep teams organised — without the back-and-forth.

GymAxis supports staffing and team operations so everyone knows what to do, and when.

Rotas
Plan shifts across sites and teams.

Tasks
Assign, track and complete daily work.

Team updates
Share announcements in one place.

Staff records
Profiles, roles and permissions.

Training reminders
Keep certifications up to date.

Absence visibility
See who's in, off or on leave.

Engineer activity
Track field teams in real time.

Manager dashboards
Visibility across the whole team.

KEY BENEFIT

Everyone knows what they need to do, when they need to do it.

CONTRACTS · CAPEX · COMPLIANCE

Contracts, compliance and investment planning — in one platform.

Contracts

- Service contracts
- Cover levels
- Renewal tracking
- Customer entitlement

CAPEX Planning

- CAPEX reporting
- Asset replacement planning
- Investment forecasting
- Risk-based prioritisation

Compliance

- Accident reports
- RIDDOR reports
- Full audit trail
- Compliance records

KEY MESSAGE

Protect the business, plan investment and maintain professional records.

STOCK & PARTS CONTROL

Know what parts are on the van, what was used, and where.

- Van stock
- Import stock lists
- Tag parts to equipment
- Usage history & reports
- Parts catalogue
- Parts used on jobs
- Replenishment requests
- Low stock alerts

KEY BENEFIT

Less missing stock, better replenishment and full traceability.

REPORTING & INSIGHTS

One view of the business.

GymAxis gives managers visibility across the whole business — every report pulling from the same connected data.

Revenue · Memberships · Leads · Sales pipeline · Service performance · Engineer activity · Equipment faults · Contract renewals · CAPEX risk · Stock usage · Staffing · Marketing performance

KEY MESSAGE

Better decisions come from connected data.

Give managers visibility across the whole business.

BUILT FOR

One site, multi-site, enterprise and engineers.

Independent Gyms

- Simple management
- Clear visibility
- Less admin

Studios

- Memberships
- Classes & comms
- Staffing

Multi-site Operators

- Sites & regions
- Group reporting
- Service visibility

Equipment Engineers

- Jobs & reports
- Stock & contracts
- Invoices

Enterprise Operators

- Permissions & approvals
- Audit trails
- Dashboards & compliance

KEY MESSAGE

GymAxis scales with the business — from solo engineer to enterprise operator.

WHY GYMAXIS IS DIFFERENT

Not just another gym system.
